

LANDER VALLEY SPORTSMEN

MAY 2005

Greetings Club Members,

The range gate near the road has been discontinued. That access is Fremont County 357 and is not to be gated. Again I'd ask members to be friendly to other users and introduce yourself thus keeping a handle on the 'member and guest only' policy.

Have you noticed the hand talley/counters installed at each firing line cover? Please help by 'clicking' in ONCE for each user day. As the notice reads the US Dept of Army can obtain funds from outside the defense dept for non-department usage. Would pop up targets be enjoyable? How about electricity? I'm not sure just how much the LVSA members would get to help plan the upgrades but the meeting held with the training officers from the National Guard of Lander and Guernsey promised no changes were expected to our being able to keep a lease and the ability to continue our activities.

NEEDED- Does anyone have a left over amount of 'Tyvek' house wrap? We could use any that would make a 6 x 10 foot section for target backing at the indoor range. The wrap helps hold the lead dust in the trap behind the targets. Contact-Pat @ 332-3103, Dudley 332-2811, Roger 335-9323, Tom 332-2082 and we'll pick it up.

You have already noticed that it is RAFFLE TICKET TIME. They are "self sellers" if you just offer them to your shooting friends. Thanks to Doug Lemm and The Good Place for helping obtain the Rem 700 in 243; it is a great choice for an enjoyable all around useful rifle. If you need MORE tickets, contact Pat McCoy-332-3103 or Dudley at 332-2811.

The outdoor competition season is well under way. The activities are open to all. If some sound interesting or you just have questions about them contact the person listed on the schedule. I'm sure they would be happy to help you understand the activity and encourage your participation. Just how accurate is that elk rifle anyhow?? Or your varmint shooter?? The mid range challenge gives you a chance to shoot for 30 minutes at 600 yards from any position, with the last 10 shots giving you a score. You could be the first to shoot a 100 and earn the pot that has been building for several years.

***Work days starting first Monday in June-Bruce Campbell at 332-2524 for more info and to get your work credit for the year!

Ronald Kamp, a member from Daniel, WY set a new WY state record at the Feb 20th silhouette rifle match by posting a 53 out of 60 with his Anschutz smallbore rifle.

Wishing you a safe summer of shooting . Roger Sebesta, President
